DCI SECURITY COMMITTEE  
MONTHLY ACTIVITIES REPORT  
APRIL 1980

1. The Committee met in special session to consider nondisclosure agreements for use by persons being granted access to compartmented material protected within the APEX system. Members favored continued use of the existing Intelligence Community nondisclosure agreement for SCI with modifications by Community General Counsels to incorporate better prepublication review requirements consisted with the Supreme Court's ruling in the Snepp case. All except the NSA representative favored having a standard form agreement of uniform text for Community application, with any unique department or agency requirements satisfied by separate, internal forms.

SUBJECT: Monthly Activities Report - April 1980

4. The first draft of Community physical security standards for APEX compartmented facilities is in coordination. An open issue is whether this update of unclassified USIB standards requires Confidential classification. ☐

25X1

5. The Investigative Standards Working Group met to begin its consideration of tasking recently assigned by the Security Committee. Items to be addressed by the Working Group include development of polygraph standards for the Intelligence Community and creation of a course of instruction for SCI adjudicators. The Working Group also reviewed the status of DCID 1/14 appeals procedures and agreed to renew efforts to establish appropriate guidelines. Adjudication guidelines have now been published and will be distributed to the Security Committee at its next meeting. ☐

6. The Security Awareness Working Group reviewed and discussed a number of State Department security films which are intended for use at more than 70 overseas stations. The "Security Orientation for Senior Officers" package was distributed to each agency represented at the meeting. Copies have now been provided to all SECOM organizations. ☐
